Vira-Care High Level Disinfectant Wipes – made using non-woven material that offers both strength and absorbency with no lint deposits. Our wipes are fast and effective when it comes to eliminating germs, bacteria, viruses, yeast fungi, mould and odours. They are impregnated with our unique formulation Vira-Care which contains a rapid acting broad spectrum bactericide, virucide, algaecide and fungicide. Our solution has been tested and approved meeting BS6734 standards for Defra General Orders Approval and independently tested meeting EN1276, EN14675 Enterovirus, EN14476 Parvovirus & Coronavirus, EN16777 Vaccinia Virus, Kennel Cough standards. Effective against all viruses in the medical, vet area which includes kennels, animal accommodation, animal husbandry, transportation. Covers Canine Parvo Virus (CPV) and other closely related strains, effective against Feline Viruses such as Calici (FCV). Proven to be effective against MRSA, Bacillus cereus, Staphylococcus aureaus, Enteroccus faecium, E-coli, Salmonella, Pseudomonas aeruginosa and Listeria monocytogenes. Ideal for surface disinfection maintaining hygienic environments. Highly recommended in veterinary / labs / medical / dental environments, for equipment and breathing apparatus.

Our product can be used in high risk areas, in the elimination and decontamination process of all hard surfaces including surgical equipment, tools, metals, plastics, ceramics, rubbers and glass. Ideal for disinfecting high-touch points like phones, switches, handles, tables, chairs, rails, carriers. Our wipes are mobile and convenient to use in their large counter top tubs.
