- Suitable for both hygienic and surgical hand sanitising.
- Prevents cross-contamination
- Rapid drying with no stickiness, no residue
- No irritation or harsh skin effects
- Non-taint & Food Safe
- Biodegradable, Vegan Friendly & Cruelty Free

Handibac is an effective fast-acting alcohol based hand sanitiser. EN1500 & EN1276 Tested.

Ethanol based making it suitable for both hygienic and surgical hand sanitising when access to hand-washing facilities is restricted. Handibac provides a convenient way of practicing good hand hygiene. It's fast drying, leaves no residue behind, non-taint and food safe.

Our formulation is purposely designed for hand-use and contains built in emollients for added skin protection, so no harsh effects to the skin should be experienced. The antimicrobial agents are capable of cleaning, deodorising and killing a wide range of both gram positive and gram negative bacteria and some viruses within 5 minutes of exposure. The micro-organisms that are found on the skin are destroyed thus preventing infection and cross-contamination.

Ideal for use in hospitals, nursing homes, kitchens, animal-care situations, vets, public houses, restaurants, offices, vehicles etc.

All our own label products are Biodegradable. Vegan Friendly and Leaping Bunny Approved by Cruelty Free Int - no animal testing has been carried out. No animal ingredients used.

Handibac is ready-to-use – do not dilute. Do not apply to broken skin. For use in all areas where hygiene and cleanliness are of utmost importance. HandiBac meets the requirements of the food, catering, hospitality & veterinary industries. Quick acting, non-tainting food safe alcohol hand rub approved to EN1500 and EN1276 Standards. Built in skin conditioners to prevent the drying of skin. No sticky residue. HandiBac is equally suitable for frequent use in medical and care service applications. Effective against a widerange of common organisms.

A small amount is sufficient for use as a general antibacterial hand sanitiser. Apply Handibac to the hands and rub well to sanitise and disinfect, making sure particular attention to the nail areas is carried out. Rub hands together until dry.

Composition: A blend of ethyl alcohol EC No: 200-578-6, vegetable glycerin, polymer, moisturising compounds and water.

Activity: 70%+ **S.G:** < 1.0 **pH:** 7 – 8 **Viscosity:** 37 centistrokes

Appearance: Clear Liquid **Colour:** Clear / Water White **Density:** 0.88 **Odour:** Characteristic / Alcohol Like
